Join the Yolo PBA for a

Pile Burn Workshop

Join the Yolo Prescribed Burn Association (PBA) for a FREE pile burn workshop in Capay Valley. This workshop is open to all - previous experience or a background in fire is not necessary to attend!

The Yolo PBA is hosting a pile burn workshop to demonstrate how to build and burn a simple and safe pile. This event will feature live fire (if it is a permissible burn day). Pile burning is a great way to reduce fuels, especially dead or old branches, small branches, and ladder fuels.

Topics covered in this workshop:

- **Best ways to build and burn a pile for a fast and clean burn**
- **Permitting - when and what kind are required**
- **Pile burning safety and escape prevention**

Saturday, February 28

10 am to 2 pm Rumsey, CA

To register, please fill out the form at the link or QR code below:

qrco.de/yolo-pileburn

Pile burning is a key part of land management and fire resilience. Pile burning removes excess woody debris reducing fuel load and the potential for high intensity wildfire. Pile burning can be efficient and cost-effective to deal with large volumes of woody debris making it faster and requiring less labor.

Join us to learn how to safely use this land stewardship tool!
